

Dear MIWA Member.

Introduction to iWantFuel breakdown services as potential new business.

MIWA constantly seeks for potential opportunities for our members to assist them in keeping their business model relevant and sustainable.

To this end, MIWA in collaboration with iWantFuel, created an opportunity for potential new business by providing breakdown services to a fleet of transporters. The iWantFuel On-Road Refuelling Module allows transporters and small, medium and micro size enterprises (“SMME’s”) to enjoy similar discounts large corporations and companies get while at the same time removing the risks accompanied by On-Road Refuelling.

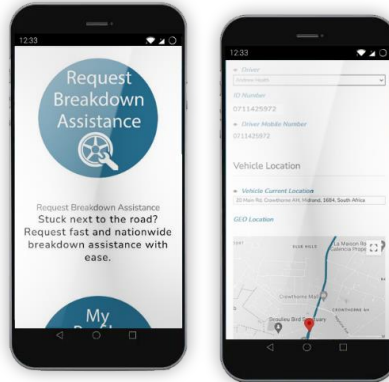

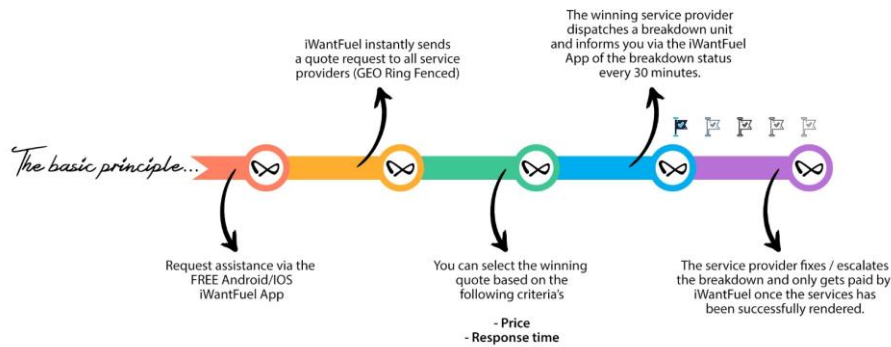

As a value-added service, iWantFuel introduced a FREE to use internal breakdown assistance service. iWantFuel through our MIWA network of accredited members provide breakdown service country wide, and their platform also uses a de-centralised quoting system to find transporters the best possible call out-fees.

iWantFuel handles payments directly from the customers internal iWantFuel iWallet and ensures the payment off MIWA member’s call out fees as no services or fuel can be ordered unless the client has sufficient funds in their iWallet.

iWantFuel uses a “Milestone” system to keep their customers informed and up to date regarding the status of the vehicle breakdown repairs.

MIWA members who are interested can make contact on info@iwantfuel.co.za to register.

HOW IT WORKS

IMPORTANT FACTS

When you become a breakdown service provider on the iWantFuel platform, keep the following in mind.

- *There are no registration fees.*
- *There are no monthly subscription fees.*
- *We guaranteed payments for your call out.*
- *Fast, Easy and Secure to use.*
- *Once you register, you are live!*

CALL OUT & PAYMENT

The moment the customer accepts the quote the quoted amount will be locked in the customers iWallet. This amount will be paid to the breakdown service provider once the call out *has been completed*.

The breakdown service company will receive all the client's information and all the relevant details regarding the broken-down vehicle.

iWantFuel will always pay the quoted call out fee.

NB: If there are extra charges the service provider can quote the client directly for any additional services.

iWantFuel's main aim is to get a breakdown service provider to the vehicle as fast as possible and to make sure that our breakdown service providers always gets paid their initial call out fees.

To Get started, visit iWantFuel.com, Click on Get Started, Click on the Breakdown services icon and complete the required information. NB: Registration is FREE and there are no Monthly Subscription Fees!
